

FREE RESOURCE · TEMPLATE

Potable Water Safety Log

For Caribbean hospitality environmental health

Create a routine record of water checks, sampling, exceptions, corrective action and evidence across the property.

WHAT'S INSIDE

A practical working resource · Clear ownership and evidence fields · Follow-up and verification

How to use this resource

1 Confirm what applies

Use current requirements and technical limits from the competent authority, licence, approved procedure or qualified specialist.

2 Set the operating rhythm

Define where the check happens, how often it is needed and who owns it.

3 Record exceptions clearly

A failed or unusual result should trigger a visible action rather than disappear inside a log.

4 Keep the evidence

Link supporting reports, photographs, contractor records, rechecks or authority correspondence.

5 Verify closure

Do not treat an issue as complete until the control has been restored or the next step has been formally accepted.

IMPORTANT

Environmental-health requirements, thresholds and reporting duties vary by jurisdiction.
Follow current instructions from the competent authority and qualified professionals.

Potable Water Safety Log

Create a routine record of water checks, sampling, exceptions, corrective action and evidence across the property.

CHECK / SAMPLE POINT	AREA	FREQUENCY	DATE	RESULT / OB SERVATION	ACCEPTABL E?	ACTION / ES CALATION	OWNER	EVIDENCE	NEXT DUE

A completed form is not the control. **The follow-through is.**

CaribSafe helps hospitality teams connect routine checks, exceptions, corrective actions and evidence so environmental-health work stays visible between inspections and incidents.
