

FREE RESOURCE · WORKSHEET

Post-Hurricane Property Assessment

For Caribbean hospitality hurricane readiness

Capture visible hazards, damage, service status and immediate controls before normal operations resume.

How to use this resource

1 Localise the plan

Use the official emergency arrangements, authorities, contacts and property procedures for the island where you operate.

2 Assign before activation

Name the people and back-ups responsible for key functions before storm conditions create pressure.

3 Work from official information

Monitor recognised meteorological and government sources and translate updates into property decisions.

4 Record significant actions

Capture decisions, accountability, changes and evidence as the event develops.

5 Debrief and improve

After the event or exercise, assign improvements and verify that important gaps are actually closed.

IMPORTANT

Follow official warnings, evacuation orders and national/local disaster-management instructions. This resource supports planning; it does not replace emergency authorities, professional advice or your approved emergency plan.

Post-Hurricane Property Assessment

Capture visible hazards, damage, service status and immediate controls before normal operations resume.

Assessment date / time

Assessment team

Area / building

Immediate life-safety hazard

Access safe / restricted

Structural / building observation

Water / flooding observation

Electrical / generator status

Fire / life-safety systems status

IT / communications status

Food / cold-storage impact

Guest / staff welfare issue

Immediate control taken

Photo / evidence reference

Further specialist assessment required

A hurricane plan should work when the storm is real.

CaribSafe Ready helps turn the plan into action.

CaribSafe Ready helps teams prepare, assign ICS-style roles, coordinate emergency tasks, maintain staff accountability and preserve the operational record for recovery and review.
