Security Patrol Safety Card

For Caribbean hospitality staff safety

A concise briefing card for route risks, communications, restricted actions, escalation and safe completion.

How to use this resource

1 Assess the work

Identify where the employee works, whether they are alone, what could go wrong and how quickly help could arrive.

2 Agree the contact method

Choose a practical check-in, radio, phone or alarm process and make sure the employee knows how it works.

3 Set the escalation trigger

Decide what a missed check-in, overdue journey or raised alert means before it happens.

4 Protect privacy

Collect only the safety information needed for the purpose and follow the privacy/employment rules that apply locally.

5 Review incidents and near misses

Use what actually happens to improve staffing, training, routes, supervision and emergency procedures.

IMPORTANT

This resource supports staff-safety planning. It does not replace risk assessment, training, supervision, emergency services or the employment, privacy and occupational-safety requirements that apply locally.

Security Patrol Safety Card

A concise briefing card for route risks, communications, restricted actions, escalation and safe completion.

Officer / shift

Patrol route / zones

Known hazards / restricted areas

Radio / phone check complete

Alarm / emergency method confirmed

Expected patrol duration

Check-in / monitoring arrangement

Do-not-enter / wait-for-support situations

Violence / aggression escalation

Medical / first-aid route

Missed checkpoint / delay escalation

Patrol completion confirmed

Technology supports the safety process. It does not replace it.

CaribSafe connects SOS, journey tracking, safety check-ins, Trusted Contacts and incident visibility with the wider operational processes your team already needs.
